AJEJOHNSON EMMANUEL

Junior Software Engineer

📞 +234-907-661-8975 @ eajejohnson@gmail.com 🔗 github.com/e-xxxxl 📍 Ibadan, Nigeria.

SUMMARY

A dedicated Junior Software Developer with skills in React, Node.js, and MongoDB, focused on building responsive web applications while continuously learning and expanding my expertise. As a Media Team Member at TAG Worldwide, I create engaging digital content and manage social media using Adobe Photoshop and Premiere Pro. Active in the Google Developer and Postman Lautech Communities, I bring both creative and technical solutions, with a passion for ongoing growth and learning.

PROFESSIONAL EXPERIENCE

Junior Software Developer

SQI College of ICT

📅 2022 - Present   📍 Ogbomoso, Nigeria

- Collaborated with senior developers to design and implement web applications using JavaScript, React, and Node.js.
- Assisted in building and maintaining responsive websites, ensuring optimal performance across various devices and platforms.
- Contributed to the development of back-end services with Node.js and MongoDB to support dynamic web applications.
- Participated in code reviews, debugging, and troubleshooting to ensure clean, efficient, and scalable code.
- Worked closely with the team to integrate RESTful APIs for enhanced functionality and seamless user experiences.
- Engaged in regular team meetings to discuss project goals, updates, and technical challenges.
- Gained hands-on experience with version control systems like Git to manage and collaborate on project codebases.

Media Team Admin

TAG WORLDWIDE

📅 2017 - Present   📍 Ibadan, Nigeria

- Collaborated with the media team to produce engaging digital content, including graphics, videos, and promotional materials for various campaigns.
- Assisted in content planning and strategy to align with marketing goals and audience engagement.
- Supported the execution of social media campaigns, analyzing trends to optimize reach and engagement.
- Utilized media editing software (e.g., Adobe Photoshop, Premiere Pro) to create high-quality visuals for online and offline channels.
- Worked closely with the creative team to ensure brand consistency across all media outputs.
- Contributed to team brainstorming sessions to generate fresh ideas for content creation and digital marketing efforts.

EDUCATION

Bachelor of Science, Computer Science

Ladoke Akintola University of Technology

📅 2023 - Present   📍 Ogbomoso, Nigeria

KEY ACHIEVEMENTS

Junior Software Developer:

Developed and deployed a **responsive hotel booking platform** using **React** and **Node.js**, increasing bookings by 20%.
Optimized application performance, reducing load times by 30%.
Integrated **RESTful APIs** for real-time chat, boosting user engagement.

Media Team Member:

Produced High-Quality Visual Content for social media using **Adobe Photoshop** and **Premiere Pro**, which led to a 30% increase in follower engagement.
Successfully Managed Social Media Accounts, contributing to a 40% growth in online presence.
Improved Campaign Performance through data-driven insights, increasing the effectiveness of social media strategies.

SKILLS

Junior Software Developer Skills:

Front-End Development: HTML, CSS, JavaScript, React, Bootstrap

Back-End Development: Node.js, Express.js, MongoDB, Firebase

Responsive Web Design: Creating websites optimized for various devices

Version Control: Git, GitHub

Media Team Member Skills:

Content Creation: Video editing, graphic design, promotional content

Social Media Management: Campaign planning and execution

Visual Design: Adobe Photoshop, Canva

Brand Consistency: Ensuring alignment with marketing and brand strategy

Communication: Team collaboration and idea sharing

STRENGTHS

Problem-Solving:
Skilled at troubleshooting and resolving technical issues efficiently in both software development and media projects.

Creativity:
Strong ability to generate fresh ideas for engaging digital content and innovative solutions in software development.

VOLUNTEERING

Community Member
Google Developer Groups

📅 2022 - Present

As a community member of Google Developer Groups, I actively participate in events, workshops, and networking opportunities focused on Google's technologies. I engage in knowledge sharing, skill development, and collaboration with fellow developers to stay updated with industry trends and best practices.

Community Member
Postman Lautech Student Community

📅 2024 - Present

As a member of the Postman Lautech Student Community, I collaborate with peers to explore API development and testing using Postman tools. I participate in hands-on sessions, hackathons, and discussions to enhance my understanding of API workflows and best practices in software development.
